PROFILE

I started machining parts and ended up writing code — along the way I found both crafts ask for the same thing: precision, iteration, and finding the solution that fits. Today I design custom parts in SolidWorks and AutoCAD at Domoli, and I still build web products end to end when a project calls for it. I grew up between Catalan, Spanish, Punjabi and English — I adapt fast to different teams, clients and contexts.

4+ YRS EXPERIENCE
5 INDUSTRIES
4 LANGUAGES

EXPERIENCE

- Domoli S.L.** Sep 2024 – Present
Technical 3D Designer
I design custom parts to client specs in SolidWorks and AutoCAD, and manage their sheet-metal manufacturing from spec to production.
- ADS** Feb 2024 – Jun 2024
Full Stack Developer
Backend and frontend development for multiple clients, covering the full web product lifecycle.
- HILOSA** Dec 2023 – Feb 2024
Colorist
Custom color matching and material blending tailored to each client's request.
- Tallers d'Hostoles** Jun 2022 – Sep 2022
Industrial 3D Designer
3D design of industrial plants, budget management and production logistics.
- TAVIL** Jun 2022 – Sep 2022
Production Technician
Setup and maintenance of production lines.

TOOLS & SKILLS

- Technical 3D design**
- SolidWorks
 - AutoCAD
 - Custom part design
 - Sheet metal fab.
 - Industrial 3D design
- Development & product**
- Full Stack
 - Interface design
 - Figma
- Management**
- Production
 - Quality control

EDUCATION

- CFGS Computer Engineering**
Bosc de la Coma
- CFGM Machining**
Ins la Garrotxa
